EDUCATION

Master of Science in Business Analytics, Rady School of Management 12/2026

University of California, San Diego, CA

GPA: 3.81

- Relevant Courses: Marketing Analytics, SQL/ETL, Scalable Analytics, Customer Analytics, Recommender Systems

Bachelor of Science in Business Economics, Rady School of Management 06/2024

University of California, San Diego, CA

- Provost Honors

EXPERIENCE

Business Analytics Consultant, MSG Hospitality Group, San Diego, CA 03/2026 - Present

- Led a 4-person analytics team to conduct marketing channel performance evaluation for a 4-restaurant hospitality company; owned weekly cadence, stakeholder communications, and team deliverables across a 10-week engagement
- Built an end-to-end pipeline in Python/Polars processing 40k+ POS transactions across 4 restaurants

Financial Data Analyst Intern, MSG Hospitality Group, San Diego, CA 03/2026 - 04/2026

- Analyzed 362 invoice line-items in Excel/Python across 8 vendors and 203 SKUs for two restaurants (30.5K total spend); standardized packaging into comparable base units
- Identified 36+ credible above-market items at the primary restaurant, therefore directing renegotiation efforts toward highest-spend items first

Research Analyst Intern, UCSD, San Diego, CA 06/2023 - 06/2024

- Cleaned and analyzed U.S. Census datasets in Python/Pandas to surface workforce diversity trends; created visuals and concise writeups for stakeholders to support decision-making and clear documentation of results
- Utilized regression analysis (Statsmodels) to evaluate how messaging impacts applicant outcomes; identified patterns associated with a 15% increase in diverse applicants

PROJECTS

Marketing AI: Campaign & ROI Optimization Project, UCSD 02/2026

- Built an end-to-end marketing propensity modeling workflow in Python (logistic regression, MLP, random forest, XGBoost) to rank customers for an upgrade campaign; evaluated models with ROC-AUC and lift/gains
- Generated a deployment-ready CSV containing customer IDs and a mail/no-mail flag based on the profit-maximizing targeting cutoff for wave-2 execution

Data Engineering: SQL/ELT Project, UCSD 08/2025

- Built an ELT pipeline in Python (psycopg2) from Postgres to Snowflake to create analytics-ready reporting tables (8.4k PO line items, 2.1k transactions, 13 suppliers)
- Integrated external NOAA weather data and created a ZIP×date table (49.1k daily rows, 2000–2025) to support operational performance tracking

SPECIALIZED SKILLS

- **Languages/Coding:** Python, SQL, Snowflake, Git, Spark
- **Operating Systems:** Mac OS, Microsoft Windows, Excel, Word, PowerPoint
- **Tools:** Tableau, VS Code, GitHub Copilot, AWS (S3)
- **Technical Skills:** Marketing Strategies, Forecasting, Exploratory Analysis, ROI Modeling, Segmentation, A/B Testing, Predictive Modeling, Model Evaluation, Data Visualization, ETL/ELT, Cloud Computing, AI Workflows
- **Projects:** <https://github.com/rsm-trsullivan>

PROFESSIONAL AFFILIATIONS & LEADERSHIP

- Project Lead: MSBA Capstone Project (Business Analytics Consultant) 03/2026 - Present
- Member: Rady Data Analytics Club 08/2025 - Present
